

RICHTEX

#306

DRYWALL

PRIMER / SURFACER

- Excellent Sealing Properties
- Smooth Surface
- Exceptional Coverage & Hide
- Excellent Sanding Properties

Richard's RichTex Drywall Primer/Sufacer is a specially formulated professional primer/sealer specifically designed for application to new gypsum drywall and wallboard with recycled paper that has a potential to exhibit a yellowish bleed or discoloration when painted. It's special formulation provides excellent stain-blocking properties to minimize this problem in the new construction market, as well as provides excellent coverage, is easy to apply, has excellent sealing qualities, and provides an excellent base coat for the application of both water-based and alkyd/oil-based finish coatings. For interior use only.
