

FlexDeck

*Creates A Thick, Rich,
Durable Surface*

*Wood & Concrete
Deck Resurfacer*

Richard's FlexDeck Wood & Concrete Deck Resurfacer is a specially formulated 100% acrylic high build coating designed to resurface old, worn, damaged and weathered wood and concrete deck surfaces. It is formulated as a high performance coating offering excellent durability, scuff and wear resistance under heavy foot traffic. Locks down splinters on wood decks; fills cracks up to 1/4"; and forms an effective barrier against moisture that can damage exterior wood and concrete. FlexDeck Coatings are easy to apply and dry to a low sheen, barefoot friendly finish. It resists fading, cracking, chipping, peeling and mildew.
